

GL.EM

Giulio Larovere (vocals and acoustic guitar) and Enrico Meloni (acoustic guitar and choirs) met in 2011 during a jam session on the stage of Barrio's Café in Milan and immediately realized that they had in common the passion for quality music.

The genre proposed by GL.EM, with two guitars and two voices, goes from The Beatles to Ben Harper, from The Police to Cat Stevens, Oasis, Verve, Bob Marley, Stereophonics, Robbie Williams, to the latest more rhythmic hits of Bruno Mars, Avicii, Asaf Avidan, Justin Timberlake.

GL.EM are versatile and suitable to enhance your most important moments with a soundtrack that can make unique and unforgettable your private events, "House Concerts", receptions, weddings, conventions and corporate events.

GL.EM can independently provide audio and light equipment, so as to create the right atmosphere in the live area of your event. You can find some sample videos at this [LINK](#).

They also cooperate with professional DJs, audio and lighting services, located throughout the national territory and able to further enrich their show, making it qualitatively unique.
